

OC Library Resources

The Mac Club has been coordinating with the OC Library to provide information for your use during these “Stay at Home” conditions. While OC Public Library's doors are currently closed, they have provided our community with resources to help us get by in this time of uncertainty. The Library has created a few handouts for eResources that we hope will help you continue learning and provide entertainment from the safety of your home. The handouts will show you how to:

- Sign up for an eCard from home to take advantage of our collection of eBooks, eAudiobooks, and digital Magazines. An eCard is **not** needed if you already have a physical library card.
- Download eBooks and eAudiobooks from the Libby app and on your computer through OverDrive.
- Read digital magazines through the RBDigital app on your phone or desktop computer.
