

## Drought Tolerant Gardens

**Thursday, November 12, 2020 at 2:00 p.m. Via Zoom**

Our guest speaker, Tom Farrell, has been Home Gardening for 50 Years in Orange County. In addition to training from UCANR in Ornamental Horticulture, Tom has a Certificate in Ornamental Horticulture from Orange Coast College. Since 1999 Tom has been working with the Master Gardener program in OC through outreach in education in Ornamental Horticulture, plant propagation, pollination, and drought tolerant plants/Mediterranean Gardens.

In his presentation Tom will cover gardening in the Southern California Mediterranean climate and provide tips for designing and planning the drought tolerant garden including steps to implement the garden design. Beginning with a definition/description of drought tolerant plants, attendees will learn how to select, plant, water and maintain the right plants to thrive in their gardens.

*Please join us for this highly informative presentation!*

**The meeting will be a Zoom video conference. Zoom instructions will be emailed to Members.**
