SUBJECT: GRF Price Increase for Electric Vehicle Charging Stations		

Southern California Edison’s (SCE) summer rates that became effective June 1 are 5% higher than last winter’s rates; additional planned rate increases for 2023 and 2024 are estimated to be 9% to 10% for each year. As a result, GRF adopted Resolution 90-23-41, which increases its electric vehicle charging rates for one year beginning September 2023 and continuing through September 2024 to recover costs.
