Should the Board endorse the proposed revisions, Staff recommends that a motion be made and seconded to accept the resolution and allow discussion to ensure that the resolution reads to the satisfaction of the Board. Staff then recommends that a Board Member postpones the resolution to the next
available Board Meeting no less than 28-days from the postponement to comply with Civil Code §4360.

Director Millman made a motion to accept the resolution to revise the Laguna Woods Village Vehicle, Traffic and Parking Rules for discussion purposes and postpone the final vote for 28 days pursuant to Civil Code §4360. The motion was seconded by Director Gros.

Discussion ensued among the Directors. Director Skillman commented about the traffic school fee and felt the traffic school would be beneficial for all residents.

RECOMMENDATION
Staff recommends the Board amend the Laguna Woods Village Vehicle, Traffic, and Parking Rules to specify the types of traffic violations eligible for Traffic School.

BACKGROUND
The Security Department is responsible for the administration of the Laguna Woods Village Vehicle, Traffic, and Parking Rules; including coordination of Traffic School. Traffic School is a two hour class that any individual can attend for traffic violations in lieu of paying the appropriate traffic fine. Traffic School is designed for Laguna Woods Village drivers, addresses traffic safety topics, and is available to an individual once during any three-year period.

DISCUSSION
Staff recommends that certain violations be ineligible for Traffic School, including Parking, RV Lot Parking, and Handicap Parking. In addition, specific moving violations such as Reckless Driving, Unlicensed Driver, and Hit and Run are serious violations that endanger the community and should not be permitted to avoid the higher fine by signing up for Traffic School. Other parking violations including the Electric Charging fines, are not related to the material discussed in Traffic School. The proposed change will provide consistency and remove the alternative in the Rules and Regulation allowing individuals to use Traffic School to avoid paying the appropriate traffic fines.

FINANCIAL ANALYSIS
The traffic fines are designed primarily as a deterrent to help enforce community rules and regulations. The revenue collected is used to offset the administrative costs associated with a citation such as enforcement, filling, data entry, correspondence with the driver/Owner, and scheduling traffic hearings. A $20 fee is charged to partially offset administrative costs and the modifications proposed above are not anticipated to have a significant impact on revenue.

STAFF REPORT

DATE: May 9, 2019
FOR: Community Activities Committee
SUBJECT: 27-Hole Golf Course Summer Closures

RECOMMENDATION
Authorize the closure of nine holes per week, as needed, on the 27-hole golf course when extreme summer weather is negatively affecting the golf course to allow proper maintenance and time for the fairways and greens to recover.

BACKGROUND
In July and August 2018, the golf course was subjected to very high temperatures and above normal levels of humidity. This extreme weather caused extensive stress and damage on the different grass surfaces creating poor playing and maintenance conditions.

DISCUSSION
Authorizing the Recreation and Special Events Department to close one course (nine holes) at a time during extreme summer weather allows maintenance personnel to perform necessary work to preserve the course’s playability. In addition, the absence of cart and foot traffic on the fairways and greens will allow the grass to strengthen further.

This closure protocol would only be utilized if absolutely necessary as determined by the golf course maintenance and operation managers.

FINANCIAL ANALYSIS
No financial impact is anticipated. There are fewer golfers in July and August and those interested in playing would be accommodated on the remaining two (nine-hole) courses.

27-Hole Golf Course Summer Closures

The Committee discussed the staff recommendation to approve the closure of nine holes per week, as needed, on the 27-hole golf course when extreme summer weather is negatively affecting the golf course to allow proper maintenance and time for the fairways and greens to recover.

A motion was made to support staff recommendation to authorize the closure of nine holes per week, as needed, on the 27-hole golf course when extreme summer weather is negatively affecting the golf course to allow proper maintenance and time for the fairways and greens to recover.

Motion to approve staff recommendation of the closure of nine holes per week, as needed, on the 27-hole golf course when extreme summer weather is negatively affecting the golf course to allow proper maintenance and time for the fairways and greens to recover carried unanimously.
RESOLUTION 90-19-XX

27-Hole Golf Course Summer Closures

WHEREAS at the May Community Activities Committee (CAC) meeting, Staff recommended approval to authorize the closure of nine holes per week, as needed, on the 27-hole golf course when extreme summer weather is negatively affecting the golf course to allow proper maintenance and time for the fairways and greens to recover;

WHEREAS in July and August 2018, the golf course was subjected to very high temperatures and above normal levels of humidity;

WHEREAS extreme weather caused extensive stress and damage on the different grass surfaces creating poor playing and maintenance conditions;

WHEREAS authorizing the Recreation and Special Events Department to close one course (nine holes) at a time during extreme summer weather allows maintenance personnel to perform necessary work to preserve the course’s playability;

WHEREAS the absence of cart and foot traffic on the fairways and greens will allow the grass to strengthen further;

WHEREAS this closure protocol would only be utilized if absolutely necessary as determined by the golf course maintenance and operation managers;

WHEREAS no financial impact is anticipated as there are fewer golfers in July and August and those interested in playing would be accommodated on the remaining two (nine-hole) courses; and,

NOW THEREFORE BE IT RESOLVED, June 4, 2019, that the Board of Directors of this Corporation hereby introduces authorization of the closure of nine holes per week, as needed, on the 27-hole golf course when extreme summer weather is negatively affecting the golf course to allow proper maintenance and time for the fairways and greens to recover;

RESOLVED FURTHER, that the officers and agents of this Corporation are hereby authorized on behalf of the Corporation to carry out this resolution.

June Initial Notification
Should the Board endorse the proposed revisions, Staff recommends that a motion be made and seconded to accept the resolution and allow discussion to ensure that the resolution reads to the satisfaction of the Board. STAFF REPORT

DATE: June 4, 2019
FOR: Board of Directors
SUBJECT: Alternative Herbicide Trial Report

RECOMMENDATION

Approve an unbudgeted expense of approximately $3,000 for alternative herbicide products.

BACKGROUND

Staff was directed to investigate a viable alternative to Roundup® and other herbicides that contain glyphosate.

DISCUSSION

In response to concerns from the community regarding the safety of the herbicide Roundup® and its main ingredient glyphosate, Staff was directed to investigate the potential use of viable alternative products.

Most of the natural, organic, and alternative products have the potential to increase the cost of weed control dramatically. There are several key variables; cost per gallon, the effective quantity, the application rate, and the number of applications. These variables have the potential to increase the costs of any weed control program.

With all of the conflicting available information, Staff decided to test the efficacy of six of the leading alternative herbicides. As the efficacy of Roundup® is well known, it was used as the control. To reduce the number of variables, Staff standardized the trials (Attachment 1).

Each product has different costs per gallon, different claims to safety, different levels of efficacy, and different application price levels. By creating a trial program, each of these important factors was addressed. The data produced from the trials will allow the Board to make an educated decision on an alternative product to glyphosate (Attachment 1).

Finale® outperformed the entire group of alternative products and was the only product that killed the Kikuyu grass completely. The trial showed that Finale® at four ounces per gallon rate, along with one half ounce of Oroboost® additive, is a viable alternative to glyphosate products. If the Board desires to eliminate Roundup® and other glyphosate products from the herbicide program in Laguna Woods Village, the recommendation is Finale® with Oroboost®.
FINANCIAL ANALYSIS

Based upon the historic usage of Roundup®, the estimated additional annual cost for the use of the Finale® blend will be approximately $3,000. Please see the attached detailed report for additional financial information.

Alternative Herbicide Trials
Laguna Woods Village

Introduction

In response to concerns from the community regarding the safety of the herbicide Roundup® and its main ingredient glyphosate, the Landscape Committees from the Golden Rain Foundation, United Laguna Woods Mutual, and Third Laguna Hills Mutual directed staff to investigate the potential use of alternative products.

In recent years there has been an interest in the landscape and agricultural industries with alternative herbicides to control weeds. In response, many herbicide manufacturers have entered the market with synthetic, organic, natural, and other safe alternative products. Throughout the green industry there are different views on which herbicide to use, which is the most effective, and which is the safest. In the green industry, weeds are referred to as pests; the terms “herbicide” and “pesticide” in this context are synonyms and are used interchangeably. Results of these herbicides have varied based on the volume of product that was applied, the type of weeds treated, the type of weather or season in which it was applied, the application equipment, the sponsor of the test, and human error.

Most of the natural, organic, and alternative products have the potential to increase the cost of weed control dramatically. There are several variables; cost per gallon, the effective quantity, the application rate, and the number of applications. These variables have the potential to increase the costs of any weed control program.

With all of the conflicting available information, Staff decided to test the efficacy of six of the leading alternative herbicides. As the efficacy of Roundup® is well known; it was used as the control. To reduce the number of variables, Staff standardized the trials. To oversee and verify the methodology and metric, Staff employed the services of MTC Landscape Services, an expert in agronomics and landscape methodology. The principal, M. Tom Carrasco, is a licensed Pest Control Adviser (PCA). PCAs are licensed by the State of California as professional consultants who serve the California agriculture, landscape, and horticulture industry.

The safety aspect of alternatives to glyphosate is also a factor to be considered. Many of the organic alternatives do include EPA registration numbers and strong signal words such as DANGER and WARNING. The level of safety, according to the EPA, from least to most toxic is as follows: CAUTION, WARNING, DANGER, and POISON. These strong signal words on some of the alternative herbicides indicate that these products may be a concern for the employee applying the product, but they are also a possible concern for the public and the environment.
Trial Location and Plan

The location of the trial was adjacent to 3486 Bahia Blanca West. The location is northwest facing with six to ten hours of partial sun during February and March. The total square footage of the trial area is 5,852 square feet. Each product was applied in a dedicated, marked location of 200 square feet each.

Most herbicides, including glyphosate, either contain or require an added adjuvant to improve their efficacy. The adjuvants help with the spreading, adhesion, and penetration of the main product. For these tests, Oroboost® was used; it is certified organic and possesses superior penetration properties. A recent University of Illinois study concluded that Oroboost®-treated applications are absorbed into the leaf more quickly, and move a greater percentage of the systemic herbicide to the roots faster than herbicide alone. This product also treats the issue of water quality that greatly affects the efficacy of any herbicide.

Protocol Summary

With today’s environmental and human safety awareness levels, the Landscape Management Team at Laguna Woods Village took a proactive approach to testing alternatives to the herbicide glyphosate. There have been many products entering the market claiming to be an alternative to glyphosate. Each product has different costs per application, different claims to safety, different levels of efficacy, and different price levels. By creating a trial program, we address each of these important factors. The data will allow the Board Members and Management to make an educated decision on an alternative product to glyphosate and consider alternative methods to their standard application protocol.
Testing Protocol

1. Identical, individual, new, 1- gallon spray tanks were used to apply each product.
2. All applications were performed by a licensed Qualified Applicator (QAL)
3. Products were all sprayed by the same applicator to reduce inconsistencies.
4. Each product was sprayed at the highest labeled rate.
5. Each alternative herbicide was mixed with one half ounce per gallon, of Oroboost®.
6. All plots were 200 square feet for each product
7. The chosen location turf was 85% Kikuyu and 15% mixed turf. Each plot was representative of this.
8. Irrigation was turned off for 24 hours to arrive at maximum effectiveness of the herbicides
9. A 1/2 gallon of final solution of each alternative herbicide was sprayed on its 200 square foot plot. This is equivalent to 2.5 gallons per 1000 sq. feet which is considered standard in the industry as “sprayed to wet.” This is also the setting that most spray tanks are calibrated to at the factory.
10. Pictures of each plot were taken prior to each application
11. As directed by the individual labels, a second application was applied two weeks after the initial application. These products included: Scythe®, Axxe, Weed Pharm, Finale® and Weed Zap.

PRODUCTS

The seven products tested:

1. ROUNDUP® (Control)
2. WEED ZAP®
3. WEED ROT®
4. SCYTHE®
5. FINALE®
6. AXXE®
7. WEED PHARM®
**Discussion**

Kikuyu grass is the number one weed that the crews in Laguna Woods Village have to manage every day, especially along planter edges and tree wells. A native grass of South Africa, Kikuyu was brought to the United States and Southern California in 1913. This grass was to be used for slope stabilization along the new roads and highways being built in the rapidly growing Southern California counties. Soon it made its way into home lawns, golf courses, parks, and later homeowner association turf grass areas. It grows from a thick network of rhizomatous roots and sends out stolons, which extend along the ground. Because of its rapid growth and aggressive nature, it is categorized as a noxious weed in some regions.

The majority of the herbicide use in the Village is dedicated to the maintenance of tree wells and shrub beds. Therefore, the location of the trial site, with a heavy kikuyu grass stand, was ideal for the alternative herbicide test. Kikuyu is a very tough grass to eradicate, with a thick cuticle (upper leaf layer) with underground stems and shoots which proved impervious for the organic, certified organic or natural products.

The following products provided an initial burndown which gave the appearance of success; in the following weeks the regrowth of the Kikuyu was evident. These products included Scythe®, WeedPharm®, Axxe®, WeedRot®, and Weed Zap®.

Finale® herbicide and the control product, Roundup®, outperformed all of the other tested products by far. Both of these products killed the Kikuyu grass to the roots. The original tests, performed by Staff last summer, used Finale® but did not include Oroboost®.

After the initial two applications were performed, core samples from the best visually performing plots were taken to the lab where they were tested and given an ideal growing environment to encourage regrowth. These core samples were taken from the Roundup®, Finale®, Scythe® and WeedPharm® test areas. The core samples for Roundup® and Finale® indicated no regrowth while the Scythe® and WeedPharm® core samples showed regrowth (Appendix A).
Summary

Finale® outperformed the entire group of alternative products and was the only product that killed the Kikuyu grass completely. The trial showed that Finale® at four ounces per gallon, along with one half ounce of Oroboost® additive, is a viable alternative to glyphosate products. If the Boards desire to eliminate Roundup® and other glyphosate products from the herbicide program in Laguna Woods Village, the recommendation is Finale® with Oroboost®.

Staff also recommends using a turf grass plant growth regulator. Plant growth regulators (PGR) stop the turf edges from growing for an extended period of time, reducing the need to apply herbicides. This will greatly reduce future turf runner growth and reduce the number of times Staff would need to spray herbicides to edge the turf. The edging of the Kikuyu turf at Laguna Woods Village makes up the majority of the herbicide applications and costs could be greatly reduced by using these technologies. There is a potential for labor savings and a reduction in the use of herbicides with these products. Staff will test PGRs and perform a cost analysis for review. Staff will also continue testing new non-glyphosate products as they become available and will provide pertinent updates to the Landscape Committees.

The GRF Landscape Committee came to a consensus to recommend to hold the GRF Landscaping Committee meetings quarterly from this point forward, in lieu of bi-monthly meetings. The committee will meet on the second Wednesday of that appropriate month. The next meeting will take place on Wednesday, August 14, 2019.

Change the Landscape Committee Meeting to a Quarterly Schedule

WHEREAS, in response to the reduction of GRF landscaping issues, the Landscape Committee unanimously voted on May 15, 2019, to recommend changing the meeting frequency from bi-monthly to a quarterly schedule beginning in August, 2019.

NOW THEREFORE BE IT RESOLVED, June 4, 2019, the Board of Directors does hereby approve changing the Landscape Committee to a quarterly schedule;

SUBJECT: Potential Elimination of Fox Sports West and Fox Sports Prime Ticket from Broadband Services 2020 Channel Lineup

RECOMMENDATION
Discuss the potential elimination of Fox Sports West and Fox Sports Prime Ticket from Broadband Services channel lineup effective January 1, 2020.

BACKGROUND
The Golden Rain Foundation (GRF) oversees the cable TV services at Laguna Woods Village. GRF is the authorized contract and agreement negotiator. All contracts, retransmission and distribution agreements, along with the responsibility to negotiate their terms, fall under the aegis of the GRF and its managing agent, Village Management Services, Inc. (VMS).

On May 2, 2017, the Board of Directors established a standard that evaluates independent programming contracts when they come up for renewal (Resolution No. 90-17-15). This resolution outlines parameters when contracts exceed the budgeted amount or includes significant changes in programming.

The following contracts fall within resolution parameters for renewal because the anticipated increases will exceed any reasonable budgeted amounts for 2020.

<table>
<thead>

<td>Baseball, Hockey, Basketball</td>
</tr>
<tr>
<td>Fox Sports Prime Ticket</td>
<td>29, 429</td>
<td>Poker, Bowling, Horse Racing</td>
</tr>
</tbody>
</table>

If these contracts are renewed, there would be a significant increase to the overall cost of cable TV programming in Laguna Woods Village. Programming costs are contractually confidential, but with the expected increase, these two channels would become 35% of the overall cable TV programming budget for 2020. Specific programming numbers can only be disclosed during closed session meetings with directors and officers of GRF.

With the expected cost increases for these two channels, which include Los Angeles Kings hockey, Anaheim Ducks hockey, Los Angeles Angels baseball and Los Angeles Clippers basketball, the demand at Laguna Woods Village for these two regional sports networks may not be justified.

DISCUSSION
On May, 20, 2019, Broadband Services presented the information outlined above to the GRF
Media and Communications Committee. The Committee moved and seconded a motion directing staff to prepare a staff report for Board consideration proposing that the contracts for Fox Sports West and Fox Sports Prime Ticket not be renewed when they expire on December 31, 2019. This would remove the regional sports networks from Broadband Services channel lineup effective January 1, 2020. The motion passed by a vote of 4 to 3.

If the decision is made to discontinue these two regional sports networks, residents who demand this sports programming have the ability to select one of the many streaming services who provide this content online.

The community benefits associated with the cessation of Fox Sports West and Fox Sports Prime Ticket are multi-faceted and include the following:

- Significant reduction in cost for cable TV programming on an annual basis;
- Cost reduction could be used to provide funding for other GRF programs/facilities;
- Cost reduction could be used to provide each home with a digital device;
- Cost reduction could be used to provide each home a digital channel guide; and
- Cost reduction could be used to provide each home lower cost content.

**FINANCIAL ANALYSIS**

Estimated cost reduction for cable TV programming would be approximately 35% of the $5.4M in the 2020 calendar year budget. This would reduce approximately $9.5M in cable TV programming over the next 5 years.

Member Comments (Items Not on the Agenda)

Members spoke on the following topics: woodshop room safety; flyers indicating Recreation Department co-sponsoring club events at the Performing Arts Center; new waiver/release of liability sign-in sheets specific to the Library.
Mr. Gruner stated Recreation will support club events that incur small revenue for the Recreation Department and/or present for the overall good of the community. Mr. Gruner stated Recreation is already beginning safety aspects of woodshop and all spaces at CH4. Director Bhada suggested that the sign-in sheet be added to the original paperwork when becoming a resident. Director Milliman stated the waiver sign-in sheet should not be combined with the photo release. Mr. Gruner stated sign-in sheets have always been present, including fitness which is done on an annual basis; however Risk Management and Legal Counsel requested this to be updated with the current verbiage. Director Torng stated Table Tennis signs a waiver once a year and the sign-in sheets are also used for utilization which allows staff to review needs of the facility fairly. Chair Soule requested for the waiver to be reviewed and presented under Items for Discussion and Consideration.

Report of the Recreation and Special Events Director

Mr. Gruner reported the Health and Wellness Expo was hosted at Clubhouse 5 on March 21 and 22 with over 1000 attendees over the two days. Special monthly dinners are doing exceptionally well with all selling out. The Village Bazaar held in April was sold out once again. Village Games wrapped up a week ago with 22 unique events, over 381 participants and over 800 medals distributed in total. Easter at Equestrian was well attended. The Kentucky Derby event at Clubhouse 5 hosted a hat contest with over 100 attendees. Cinco de Mayo sold out with approximately 200 attendees. The Monday Night Movie, Bohemian Rhapsody, was a sell out so Recreation booked another showing. The Landscape Department and Public Relations Department, in conjunction with Recreation, hosted Arbor Day at Clubhouse 1 with the planting of a Chinese pistachio tree.

Mr. Gruner stated the following operational improvements: many of the Clubhouse 1 gym light covers have been replaced and the remaining uncovered lights will have covers ordered; new chairs are going to be ordered for all facilities; weed abatement has begun at the Garden Centers with an email blast to all gardeners reminding them to help maintain the weeds around their plots; Clubhouse 1 survey for renovation has been completed; implemented a composting program at our dining rooms for caterers only as it is a new state requirement; Clubhouse 6 has a new HVAC unit to better control the temperature; the Community Center will be closed this weekend for installation of a new HVAC system.

Mr. Gruner stated the following facility enhancements: the current ActiveNet program has been updated to allow residents to view room availability online; etiquette signs are being posted at the facilities; the comprehensive staff training will be hosted on August 14 as approved; the California Parks and Recreation Society (CPRS) installment banquet was held at Clubhouse 2 on April 4. Director Perak was in attendance.

Mr. Gruner stated the HVAC units are having difficulty communicating with the current computer system and IT has been made aware. He asked for any problems to be reported and staff will contact IT for assistance.

Mr. Gruner was in attendance of an event in Rancho Mission Viejo and noticed the facilities, including the restrooms, are all swipe-based for convenience.

Ms. Murphy wished Happy Mother's Day to all. She reported the Mother's Day event as sold out, but Restaurant 19 is hosting a brunch 11 a.m. to 3 p.m. for those who wish to attend. Memorial Day
will be hosted at the Performing Arts Center with the All American Boys Choir and a special memorial portion. There is also a Memorial Day Run through the Laguna Woods Village hosted by the City of Laguna Hills in which residents get a discount for entering. June 1 at 6 p.m. will be an Elegant Evening Dinner with a new caterer, California Fresh, featuring Chef Jim Douglas from Wolfgang Pucks. Grandparent's Fun Day will be hosted on August 3 at Clubhouse 2, 11 a.m. to 2 p.m. Destination Shopping is offered each Tuesday through the Transportation Department. Reservations are a must and can be made by calling 597-4242.

Ms. Murphy responded to the question from Director Rothberg as to the date of the 90s Luncheon and how they make reservations.

Director Perak stated the Recreation Department is doing a wonderful job with the size and frequency of the events.

Mr. McCray stated that Mr. Cincotta and his staff have done an exceptional job of the aerification and fertilization of the course. He stated minor updates have been completed such as refurbishing and straightening tee signs, yardage markers on the cart path (no signs on the Par 3 holes), new yard markers for the fairway will be installed, ticket window installment to face out of the weather, all of which are being done in house to ensure a cost savings. The Par 3 hosted a wine and nine and other events planned to boost utilization (next event is due on June 6). The Twilight league will start next month on the last Sunday afternoon of each summer month and continues to sell out. The Men’s Golf Club Memorial Golf Tournament is May 18 which donates proceeds to the Foundation. The Ladies Trunk Show was very successful and is scheduled on occasional Tuesdays after ladies complete their play. Fitting days are scheduled regularly with Callaway in attendance next Thursday. The Pickleball and Paddle Tennis courts look fantastic and are full continuously. Tennis is at full capacity with the two courts being resurfaced after the temporary use of Pickleball and Paddle Tennis. Lawn Bowling is hosting an open house this Saturday. The strong winds damaged portions of the course, but staff is working with other departments to fix any damage. The weeds by the fencing have been addressed by the Landscaping Department.

Director Bhada inquired as to time of the Lawn Bowling open house. Per Advisor St. Hilaire, the time is 9 a.m. to noon. Director Bhada also inquired as to the Tennis clubhouse renovation. Mr. Gruner stated it is being reviewed by Mr. Munoz’s department as more funds are being requested. Chair Soule stated Director Matson would be a good reference for the Tennis update and she is very happy with the status of our golf course.

Mr. Cincotta stated the excessive heat was damaging to the golf course, but the course has recovered nicely with the help of his staff and the amount of rain received. Staff completed the aerification and fertilization of the course which takes about a month to complete with minimal closures.

Director Pearlstone inquired as to the usage vs. guest fees. Mr. Cincotta stated Mr. McCray would better answer this, but usage is back on track at this time.

Agenda Item # 14b

8. **Broadband and Contracts Report—Chuck Holland**
   Chuck Holland suggested Residents visit SCE website and subscribe to alerts.

   Mr. Holland reported on the removal of the Channel 3 guide. The next option is a DTA or iGuide. He discussed the presentation of standard-definition and high-definition channels and the difference in quality and stated that eventually all will be moved to HD channels. Since the removal of analog, there has been a 16% reduction in energy usage. He brought the Committee’s attention to the contracts—especially Fox Sports Net and Fox Sports Net West—with an estimated increase of 25% or 40% of the programming cost.

   Mr. Holland reported that since analog has been dropped, the number of digital subscribers has increased and added more set-top boxes. Residents whose televisions are plugged directly into the wall have to scan channels frequently.

   Mr. Holland gave financials on the first quarter, which included nonassessment revenues, Broadband Services, employee compensations, materials and supplies, utilities, legal fees, outside services, repairs and maintenance, operating expenses, property and sales tax, cable programming, copyright, franchise and uncollectible accounts. Costs were not anticipated to cover the additional set-top boxes, and therefore put us over budget.

   Chair Milliman made a motion for Mr. Holland to create a Staff Report to propose not to renew the two Fox Sports Channels.

- Letter was copied and sent to two parties quoted in the article.
- The President of United submitted a letter to the editor of The Globe correcting the misinformation.

5. Committee Chair Remarks

6. **Member Comments - (Items Not on the Agenda)**

Levingston (3131-D) She stated that the Gate 8 landscaping is really shabby. Only dirt by the Gate Ambassador building there. As you turn into Santa Maria, the original wall there needs landscaping.

Morris (581-O) She asked for a current list of the agencies involved with the Creek.

Sania (866-Q) She asked to plant two Japanese pistachio two years ago. They are still waiting for a bench there. Location is at Aliso Creek, close to the 400 year old tree. Also, those Pistachios are not doing well.

Berk (933-B) Too much is being left to residents to take care of. Landscape Staff should be reported what has died or is dying to get it fixed. Also, our equipment is not in the best shape. Hedgecutters used for bushes burn right across and shouldn’t be doing that (she has photos). Staff should have blowers. Years of dirt is on top of those rocks at Creek. Tree trimming crews took 14 years to cut her tree tops. They hang over and break off.

Herd (579-B) There is a lot of debris, branches, and sand deposits from the rains by the Creek. Now they have to be careful walking in grass next to the Creek because of this. It turns into mud and pickup trucks track it everywhere. The Paseo de Valencia end of creek with bridge needs water to be directed under the bridge, not around it. It deposits a lot of sand.

7. **Response to Member Comments**

Director Jarrett thanked everyone for attending this meeting. She stated that the use of blowers should be put in as a request to Resident Services.

Director Blackwell said the bench requested would be a green standard bench. There is a policy regarding benches. Mr. Wiemann stated he will look into it and will get back to the resident.

Chair Moldow said all are responsible for reporting problems in Village to Staff and should call Resident Services.

Mr. Wiemann stated he is aware of landscaping issues with Gate 8 and will be working on it within the next month or so.

Mr. Wiemann agreed that the culture within Landscaping must be changed. In the past, getting the work done was the main goal and now we are taking a more holistic approach.

Mr. Wiemann stated that a new landscaping crew, who will only be dedicated to landscaping tickets, are just waiting for trucks. You will see landscaping improvements over the next few months.

Mr. Wiemann is meeting with a biologist next week to look at the Creek and get some Creek work approved.
8. **Department Head Update**

   None.

**Consent:**

All matters listed under the Consent Calendar are considered routine and will be enacted by the Committee by one motion. In the event that an item is removed from the Consent Calendar by members of the Committee, such item(s) shall be the subject of further discussion and action by the Committee.

**Reports:**

**Items for Discussion and Consideration:**

9. **Herbicide Testing Final Report**

   Director Troutman moved to accept Staff’s recommendation to discontinue the use of herbicides containing the chemical glyphosate, where permitted by governing agencies. Director Blackwell seconded. The committee was in unanimous support.

   Director Blackwell made a motion to recommend to the Board an unbudgeted expense of approximately $3,000 for alternative herbicide products. Director Karimi seconded. The committee was in unanimous support.

10. **Discuss Creek**

   Chair Moldow said a video he was given about the Creek is too long to show at this committee and misrepresents some information about the Creek.

   Director Blackwell said there is an Aliso Creek booklet that is available at the Copy Center.

   Director Armendariz said there is a lot of miscommunication and rumors about the Creek. He went over what the Aliso Creek booklet indicates for mitigation and replacing of the bridge. He spoke about a second agreement and timeframes. He doesn’t understand why the cattails are being cut. He would like to see what areas are United’s responsibility.

   Committee discussion ensued about creek.

   Mr. Wiemann read list of agencies that have jurisdiction over the Creek. Any requests, like a bridge, have to go through all the agencies to get approved. A new foot bridge would be an extensive and expensive endeavor.

   He stated that he only has 10 men to work on GRF areas, which includes the Creek.

   The Village is only allowed to take out non-native species at the Creek. We cannot work in the bed creek at all.

   Once this mitigation plan has timed out, we can work on a new one.
Robert Berk (933-B) said the reeds could have been put on the other side of the creek so they wouldn't bother people. We need to go to Vector Control. At the other end of the Creek, there is a little house and cement for water to run over, it ponds and the silt level builds up and backs up. Land in front of her house has gotten higher. Need slits in cement to let silt go through. Palm trees there should come down also.

Suellen Zima asked what went so terribly wrong to put us on this terrible Creek path?

Ms. Sunderhaus (580-O) said the cat tails removal was approved and she has copies of those Minutes. She thanked Director Armendariz for his help with the Creek. There is a lot of photo information to reconstruct what the Creek looked liked at different points in time, if it is ever needed. Bridge railings never went back up. What is the game plan?

Mr. Herd (579-B) stated that when John Parker was Chair, he planted a lot of trees. They are native but are now out of control. Can they be removed? Mr. Wiemann said he will look into it.

Ms. Morris (581-O) stated there is a place at the foot of bridge where you can fall in because there is no barrier and it is a serious problem.

Much discussion regarding how Willows that were planted by the Creek have taken over. Mr. Wiemann will find out if they can be removed.

Mr. Wiemann stated that he will look at all the issues brought up today and will bring back a plan to a future committee meeting.

Director Troutman moved that the bridge request be denied and there be status quo. Director Karmimi seconded. The committee was in unanimous support.

11. Discuss the Possibility of Disbanding the GRF Landscape Committee

Director Armendariz made motion to continue this committee but recommend to the Board that it be changed to a quarterly schedule. Director Blackwell seconded. The committee was in unanimous support.

Director Milliman stated that the committee may only make a recommendation to Board and a Staff Report will need to make the case for moving it to a quarterly schedule.

President Skillman said this committee is needed. Landscaping at gates is always a concern and landscaping at the clubhouses. We need a place to present these topics.

Director Addington agreed with President Skillman. The Creek business alone validates this committee.

Items for Future Agendas:

- Status of Creek
- A Plan for Problems with the Creek
Concluding Business:

12. Committee Member Comments

Director Karimi said there are a lot of things we can't do today that we used to be able to do because of regulations that were put into place.

Director Jarrett said this has been a good meeting. She said volunteer growth can get out of hand.

Director Troutman said the Aliso Creek booklet must go onto the website.

Director Blackwell said we will count the days until Creek agreement has expired.

Director Armendariz said that he is thankful to the committee members and hear the residents. He has confidence in Mr. Wiemann that he will do all he can do to remedy the Creek problems.

Chair Moldow thanked everyone.

13. Date of next meeting – August 21 (If new quarterly schedule is approved by the Board)

14. Adjourned at 3:15 p.m.
